

Infinet-I Workforce Solutions is proud to announce driver training integration with DriverReach.

The integration initiative between the two companies is the first of its kind. Their collaborative efforts allow mutual customers to manage all Infinet-I Workforce Solutions training programs within the DriverReach platform.

TEXARKANA, TX (May 26, 2020) - [Infinet-I Workforce Solutions](#) powered by Vertical Alliance Group recently announced a new partnership with DriverReach, a recruiting and compliance management system for hiring CDL drivers. Employers can now control IWS driver onboarding and training programs through DriverReach.

Infinet-I Workforce Solutions is a learning management system that provides frequent and consistent training to enhance a company's safety culture. Continual safety training facilitates behavioral changes in truck drivers and operations employees.

The platforms are now interwoven – data travels between the two entities in a real-time flow of communication. The ability to integrate the two sites adds the value of convenience and efficiency for all users.

“Our mission is to simplify our client's life, the DriverReach integration helps us fulfill that goal,”

-Jay Wommack, Infinet-I Workforce Solutions Founder and CEO.

Mutual customers will benefit from increased visibility of training and onboarding documentation between the two sites. The direct API feed integration is now available to existing customers at no charge.

“We've had customers waiting for this integration to be finalized so they can take advantage of the significantly increased efficiencies – especially during this challenging environment.”

-Jeremy Reymer, DriverReach Founder and CEO.

Best Practice: Combine a learning management system with an existing recruiting and compliance management platform for maximum value. Contact DriverReach to see the integration in action. www.driverreach.com/contact-us/
